

Why we do it?

90%

Children are first generation learners

87%

Youth have no educational or career guidance

85%

Youth have no clue about what they are going to do in their career and life

What we do?

Bright Future is a nonprofit empowering underprivileged youth in India, aged 11–25, with 21st-century skills, career development, mentoring, and employment opportunities. The organization also engages parents, teachers, and employers to create an environment that supports informed career decisions. Since 2009, Bright Future has impacted over 60,000 youth through 22 centres, 100 schools, and 200+ communities, transforming aspirations into sustainable futures.

Theory of Change

Empower young people with skills and resources to achieve their dreams and passions

Collaborate with parents, educators, and local leaders to drive meaningful change.

Foster a supportive environment for sustainable impact and stronger communities.

How we do it?

Buniyad (Step to Livelihood - School Program) lays a strong foundation.

Bulandi (Livelihood Program) equips young adults with practical skills for employment.

Badi Soch (Entrepreneurship Development Program) nurtures the next generation of entrepreneurs.

ASMAAN empowers young girls from underserved communities with leadership skills, confidence, and educational grants to pursue their aspirations and higher education.
